

# THE KNOWLEDGE-BASED SOCIETY AND THE ROMANIAN EDUCATION SYSTEM

## SOCIETATEA BAZATĂ PE CUNOAȘTERE ȘI SISTEMUL EDUCAȚIONAL DIN ROMÂNIA

Alisa NICA

"PETRE ANDREI" UNIVERSITY of IASI, FACULTY OF ECONOMICS

**Abstract:**

*Achieving a relationship between education and a knowledge-based society depends on various factors. Some of them are outside the educational system and they depend too little on the initiatives or the achievement regarding the school world. Other factors are educational and they aim to take education out of this static state which sees it as a mere receiver of the funds from the state budget or from the exterior sponsorships.*

**Key words:** *education, knowledge-based society, curriculum*
