**Abstract:**

*The coins appiered early in the history of human society. The exchange process named truck was the first shape. The coins were made of metal ,gold ,silver. At the aparition of the international monetary system in 1944 through the accordings from Bretton Woods, the only currency convertible in gold was the dollar at the price of 35 \$ , settled in 1934. The idea of a common currency appeared in 1968, with the introduction of the Union Customs. The Treaty from Maastricht represents the legal base of the unique currency. The European Board choses the name EURO for the now currency, sets the coordinates of the period of transaction and convergence criterions that Member State's have to fulfill. The process of the introduction of EURO begins and the national currency will be replaced by the coins and banknot.*
